PROFILE

I am a friendly, sociable person. I enjoy meeting and getting to know others. I live in Flitwick Town and for the past three years I have been serving the local community. I take pride in all I do, work hard, trying my best as a student, for my football team and for my current employer.

Marks and Spencers' Bedford November 2024 - January 2025

Shop Floor Assistant - Christmas Temp. This role has allowed me to expand my customer service skills whilst being on the shop floor and being a first point of call for customers in assisting them with their needs. I have had to learn about the products available, location and general process of replenishment, pulling forward method, date reductions, self checkout service tills and click N collect.

Chef - Caffeine And Machine February 2024 - November 2024

During my time as a chef at Caffeine And Machine, I refined my food prep skills, always delivering food to the highest standard. I specialised on the grill handling everything from burger patties, minced beef to jerk chicken and more intricate dishes like fish tacos and hand-made pizzas cooked in our pizza oven. During my time here I learned how to perform under pressure often dealing with 15 or more tickets at once, with meant getting food out quickly without compromising quality. It was a fast paced environment where I learned to stay focused and maintain consistency, even when things got hard.

Cook - Flitwick Fisheries July 2021 - February 2024

My role as a Catering Assistant allows me to achieve excellent customer service skills both in person and via telephone. I have a understanding of food hygiene and preparation within a professional kitchen environment. As well as working closely within a small team I have also learnt how to work independently, producing results to a deadline which has improved my time management skills. I have built strong relationships with my colleagues, customers and enjoy being part of the community.

Beds Times and Citizens March 2020 — July 2021

Provided weekly paper distributions to over 160 residents within Flitwick Town. Doing this job in all seasons certainly taught me to have resilience. I enjoyed meeting the local people, getting to know them by house and name, some were even kind enough to tip me at Christmas for my service.

Luton Town FC Academy — present

Being part of Luton Town U19's Academy Football team is teaching me a vast selection of skills. Independent training, discipline by having to follow a strict diet, schedules and as well as keeping focus in order to perform to my fullest ability. Teamwork is also a key element, I have had to extend my communication skills to work with people from all nationalities. Education
